Reasons for Allowance

1. Claims **1-5, 7-13, and 15-26** are allowed.
2. Claims 6 and 14 are canceled.
3. ~~The following is an examiner's statement of reasons for allowance: Claims~~

6 and 14 are allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Applicant amended independent claims 1, 9 and 16 to include all of the limitations of objected claims 6 and 14. Therefore, claims 1, 9, and 16 allowed, likewise each dependent claims are allowed at least by virtual of their dependency on independent claims.

4. Prior art records teach a method and system of producing failure alerts in a computer network. However, none of prior arts teach or suggest the combination of monitoring status of networked elements; initiating a timer to keep track each of networked element status; performing a fault tree analysis to determine the most likely single point of failure based on rule structure related to network topology and based on expiration of the timer if receive less than all networked elements status response; receiving from network management server one or more network element failed messages; selecting one network element failed message based upon results of said fault tree analysis; forwarding said selected network element failed message to problem management server by network management server, thereby, blocking said problem management server from receiving all other network element failed messages from said network management server.
